Who are we?

Clubs for Young People (CYP) is a regional voluntary youth organization. CYP works to enable young people to enjoy their youth, realize their potential and to develop as happy, positive and responsible members of society.

CYP would like to introduce an exciting and innovative new project called 'Do Something'.

What is 'Do Something'?

We want your **energy, passion,** and **creativity** to do something positive for your communities, and take action on issues YOU really care about.

Whatever you are passionate about-bullying, animal cruelty, homelessness, cancer- (the list goes on...)

...we're here to help.

This project is led by youth, and managed by youth

You will use social media to raise awareness campaigns and organise group meetings

We will give you up to £250 to kick-start your project

Why join our project?

We:

BELIEVE in young people

TRUST young people

CELEBRATE young people

RESPECT young people

VALUE young people

Useful Resources

We have lots of helpful hints and tips from recruiting and retaining members for your club, to running your club and ensuring it lasts.
