

To whom it may concern:

Clubs for Young People (CYP) has introduced an exciting and innovative project called 'Do Something'. Do Something wants the energy, passion, and creativity of young people to undertake social action projects of their choice and do something positive for themselves and for their communities.

You're receiving this letter because we think this youth club should have a Do Something club!

Starting up a Do Something club will make young people eligible for a bursary of up to £250 to kick-start their club, and they will be supported and encouraged to achieve ASDAN accreditation to boost their C.V's. Do Something provides young people with the resources they need to run their club, from project ideas, to a start-up information pack.

Our long term goal is to increase confidence and skills to encourage young people to develop as positive, healthy, and responsible members of society. We envisage 300 young people over a 4-year project lifespan successfully engaging in positive social action, of benefit to themselves and the wider society.

Our clubs programme is completely **free** and as the project is youth-led, our clubs don't require an adult youth worker.

If you have any questions please don't hesitate to contact me. I hope you're as excited as we are about young people making change in our communities!

Yours sincerely,
Ciara Kearney
